

MyAVID Guide

What is MyAVID?

MyAVID is the AVID world’s secure, online community—a dynamic contact and organisational management system run by AVID Center in the USA.

Through MyAVID you will be able to access over 40 years of primary and secondary research-based teaching and learning resources.

This guide will:

- show you how to register for MyAVID
- provide you with a brief introduction to its key content
- show you how to access the many resources to support your AVID implementation.

How to register for MyAVID

1. Go to https://my.avid.org/register_welcome.aspx.

Core Strategies

AVID's Core Strategies are:

- Academic Language and Literacy
- Collaborative Structures
- Collaborative Study Groups
- Family Engagement
- Focused Note-Taking
- Higher-Level Thinking
- Interactive Notebooks
- Organising Materials
- Philosophical Chairs
- Relational Capacity
- Socratic Seminars

These strategies were selected for their efficacy in supporting development of WICOR® skills, their inclusion in AVID Certification and their prevalence across AVID.

1. Once on the Core Strategies page, click on [Learn More](#) for any of the strategies to access a wealth of resources.

Core Strategies

The webpages below contain resources supporting implementation of AVID's Core Strategies. These strategies were selected for their efficacy in supporting development of WICOR® skills, their inclusion in AVID's Coaching and Certification Instrument (CCI), and their prevalence across AVID. Contained on the pages are a wealth of resources, including:

- Quick-Start Resources, designed to support educators in initially implementing the strategy
- Refining Resources, intended for educators who have implemented the strategy and are now ready to go deeper
- Content-Specific Resources, which provide examples of how this strategy may look across levels and content areas
- Professional Learning Resources, created to support sites as they train educators on the strategy
- Digital Learning Resources, which support implementation of the strategy in digital- or hybrid-learning environments

These resources support schoolwide instruction and systems to help all students and educators be successful.

Collaborative Structures

Collaboration centers on the effective sharing of information amongst individuals. In an educational context, collaboration affords students the opportunity to work with peers in various group configurations as they engage with subject matter across content areas. Collaboration is essential for student success as it entails experiencing the challenges and opportunities associated with a diversity of perspectives and working styles, which can deepen metacognitive thinking, accelerate learning, and broaden perspective. Utilizing collaborative structures to provide students with the opportunity to work with different peers—from diverse backgrounds and with varying experiences—strengthens not only the class community, but enriches the learning experience for every student involved.

Using these resources, educators will be able to:

- Create a community using collaborative structures.
- Explain how collaboration supports and honors student differences that benefit the classroom community.
- Engage students in creating and monitoring the norms for successful collaboration.
- Develop students' abilities to utilize collaborative structures.

- AVID Tutor Training will enable your site to recruit and train tutors for the AVID Tutorial Process.
- AVID Tutorial Guide (updated 2020) contains the instructional materials required to support the implementation of AVID Tutorials.
- TRF & Related Resources contains sample Tutorial Request Forms (TRFs), templates, tutorial assessment guides and more.
- Tutorial Videos and Related Resources contain full-length tutorial videos that show examples of the AVID Tutorial Process at different grade levels and in different content areas, in addition to student resources.
- Virtual Tutorial Support contains resources to support virtual tutorials using an online meeting platform, digital Tutorial Request Forms, a shared collaborative whiteboard space, and some additional roles for students.
- WAG Tutorial Units are new tutorial units in the Weeks at a Glance (WAG) to assist the teaching of the refined and aligned materials. These units can be used in any grade-level with appropriate scaffolding by the AVID teacher.

Weeks at a Glance

Weeks-at-a-Glance (WAG) provides curriculum planning support including daily lesson plans and links to all resources, for the AVID elective teacher. Here you can find:

- WAGs for Years 6 to 12
- A video that explains how to use the AVID 4 A's to support digital learning for any WAG lesson plan
- A video that explains how to use digital tools for each of The 10 Steps of the Tutorial Process through the lens of The 4 A's
- Supplementary resources.

The 4 A's (adopt, adapt, accelerate, advocate)
 The 4A's® is a holistic view of technology in classrooms and can be integrated with any other educational technology framework, providing educators an understanding of the role of technology within specific educational contexts. The 4 A's are incorporated into the WAG to support teachers in using digital tools, especially in virtual classrooms.

Digital Access Through the 4A's
 This resource explains how to use the AVID 4 A's to support digital learning for any WAG lesson plan. Download the *Digital Access Through The 4 A's* document and then watch the walkthrough video below.
